REVENUE DEPARTMENT.

Circular Memorandum No. D. 1807-14, *dated 26th March* 1909.

For the relief of distress in the present season, the Government have permitted grant of loans for Takavi, Land Improvement, Earthwork to be carried out to minor tanks and Gokattes, etc. Under the standing orders of Government, the village roads communicating villages with the main Provincial and District Fund roads have to be made by the villagers themselves and only the cost of masonry works such as culverts, etc., is contributed by Government. It is noted that in some districts, especially in the Chitaldrug District, the villages are generally at some distances from the main road; and the earthwork, especially in black cotton soil, must be considerable. In such cases it will be good if the villagers can be encouraged to apply for loans from Government and carry out the work by paid labour contributed by the villagers themselves and the loan liquidated in due course in some specific proportions by the residents of the village. On similar lines villagers may also be encouraged to go in for village topes and avenue trees. The main principle in this is that though the Government may be able to contribute the whole or part of the outlay required in a famine, such outlay of Government funds is not yet called for and it will be a great advantage to the villagers to secure lasting benefit and present means of subsistence near their homes.
